WALLACE ENGINEERING HONORED IN BEST PLACES TO WORK IN OKLAHOMA COMPETITION

(Tulsa, Oklahoma) -- Wallace Engineering was recently awarded No. 15 in the 2011 Best Places to Work in Oklahoma by *OKCBiz*.

Thirty outstanding companies successful in creating and maintaining workplace excellence were honored as the 2011 Best Places to Work in Oklahoma winners at an awards ceremony held at The Skirvin Hotel on June 16th.

The Best Places to Work in Oklahoma program fosters constructive competition throughout Oklahoma, thereby encouraging quality workplaces. The rankings stem from a questionnaire about the employer's benefits and policies and an employee engagement and satisfaction survey. Results are categorized according to eight core focus areas: leadership and planning, corporate culture and communications, role satisfaction, work environment, relationship with supervisor, training and development, pay and benefits, and overall engagement.

OKCBiz Associate Publisher Jeffri-Lynn Dyer said, "The companies on the Best Places to Work in Oklahoma list truly understand how important strong leadership and a great corporate culture are to the productivity of their business. Their employees trust them, believe their jobs are secure, and they are encouraged to maintain a work/life balance."
