NEWS RELEASE

WALLACE ENGINEERING NAMES FOUR NEW PRINCIPALS

March 2006 Tulsa, Oklahoma -- Wallace Engineering is pleased to announce four new Principals to their firm.

Darren Burns, P.E. has been with Wallace Engineering for thirteen years. His civil engineering experience has been concentrated on site development, utility relocation and construction observation. Project experience includes Southern Hills Country Club Improvements, Montereau at Warren Woods and WorldCom (??) Cherokee Facility.

Ron Jantz, P.E. has been with Wallace Engineering for nineteen years. His structural engineering experience includes multi-sited retail building prototypes as well as educational and medical projects. His project experience includes Morton Comprehensive Health Services Center, Owasso YMCA and H.E.B. Grocery Stores.

Mondher Labbane, P.E. has over fifteen years of structural engineering experience, thirteen of which with Wallace Engineering. He has experience with a variety of structures including medical, commercial and parking structures. Project experience includes Saint Francis Children's Hospital, St. John's Hospital Expansion and Fine Airport Parking Structure.

Win Rice, P.E. has over seventeen years of structural engineering experience and has been with Wallace Engineering since 1989. He leads our Colorado office and manages multi-sited retail expansion projects. His main project experience includes Wal-Mart Stores, Sam's Clubs and Supercenters.
